The Bali 5.8 ALISEI sets a new benchmark in luxury cruising, seamlessly blending cutting-edge design, exceptional comfort, and top sailing performance. As the only Bali 5.8 available for charter in Italy, she offers a rare opportunity to experience one of the most innovative catamarans on the market.

Her unique open-space concept features a signature tilting door that merges the saloon with the aft cockpit, creating a vast, seamless living area. The rigid forward cockpit is equipped with a generous lounge and dining space, offering spectacular sea views and direct access from the saloon. On the panoramic flybridge, guests will find a spacious sunbathing area, a bar, and a comfortable lounge – perfect for relaxing under the sun or enjoying sunset cocktails.

Another standout feature worth mentioning is the hydraulic aft platform, a premium option that transforms into a private beach area at sea level. It's an exceptional addition that enhances comfort, water access, and the overall charter experience.

Designed for long-term autonomy, she features solar panels and large capacity tanks, making her ideal for extended, eco-conscious cruising. With 3 double cabins and 1 twin cabin, ALISEI is perfect for families, groups of friends, or upscale charters seeking a combination of luxury, space, and sustainability.

This stunning catamaran is fully crewed with 3 experienced professionals – captain, chef/stewardess, and deckhand – ensuring a relaxed, bespoke, and worry-free charter experience. Available in Italy during summer, ALISEI promises a truly unforgettable yachting experience.
