

MARIN TRGO – CAPTAIN (02/05/1988)

Born in Split May 1988 where he also finished his high school education for tourism and hotel management, he worked in his family business almost most of his life as a hospitality manager. As a family they have a strong connection with the sea so 3 years ago they have decided to buy their first boat for nautical tourism. His parents stayed in restaurant business and Marin went to the sea to finally put together his love of the sea and hospitality. From the beginning he was recognized in the business due to his knowledge and experience; he regularly won the prize for the best service on board but that was not enough for him, massive cabin charter tourism was not what fulfill Marin. So, he sold his boat and bought beautiful Catalaya and the only thing he is hoping for is that with his experience and enthusiasm he will be able to provide his guests with an unforgettable vacation.

You will love Marin from the first moment you meet him, he is a very outgoing and cheerful person who is always there for his guests. He speaks English and some German and Italian.
